

FROGTOWN FARM FALL TOUR

Cultivating Crops, Community & Clean Water

Please join the Twin Cities Metro Growers Network, Sustainable Farming Association, and Conservation Minnesota at **FrogTown Farm on September 28th, from 3pm–5pm.**

Founded in 2013, [FrogTown Farm](#) is a community-led initiative with 13 acres of green space in the vibrant and diverse FrogTown Neighborhood in St. Paul, MN. One of the largest urban farms in the country, FrogTown Farm is a demonstration farm and a destination for those who seek learning, innovation, reflection, celebration, and authentic community.

The free event will feature a farm tour focused on FrogTown’s efforts to protect water quality in an urban agricultural setting and an opportunity to learn about the historical context for the unique collaboration that created and sustains FrogTown Farm and the land they grow on. We invite all interested in hearing about the water conservation efforts and climate challenges facing urban agriculture to gather to learn about this innovative farming model and to celebrate the end of the growing season!

As FrogTown is a 501(c)3 non-profit organization, there will be an opportunity for attendees to donate directly to support the farm and to socialize and learn more about the [Sustainable Farming Association](#), [Conservation Minnesota](#), and the [Twin Cities Metro Growers Network](#).
